

**UAB FACILITIES  
STANDARD OFFICE INSTRUCTIONS**

**EXISTING FIRE WALL PENETRATIONS DISCOVERED  
DURING RENOVATION/CONSTRUCTION OF HOSPITAL PROJECTS**

**PURPOSE:**

To establish the procedures for reporting existing firewall penetrations discovered during renovations/construction of Hospital Projects.

**PROCEDURES:**

- 1.0 If any party planning for or performing renovations/construction in the Hospital finds existing firewall penetrations during the course of work, those penetrations are to be reported to Hospital Maintenance immediately by the Construction Coordinator or Construction Supervisor.
- 2.0 Hospital Maintenance will make repairs or properly document the penetrations for future correction.

(END OF PROCEDURE)
